

The Green Barrier™

Patented Design & Construction

- Project Profile:** Portwood Roundabout, Stockport
- Client:** McAlpine/Stockport Borough Council/Tesco
- Detail:** Acoustic Green Barrier™ in woven Willow, 115mtrs long x 2mtrs high with 120mm RockDelta core.
- Objective:** To reduce increased noise levels generated by additional traffic in close proximity to a new Tesco store.
- Construction date:** August 2004

The site beside the very busy road prior to installation of the Green Barrier™.

From the time of installation the Green Barrier™ has an aesthetically pleasing appearance.

The natural willow panels blend well with urban surroundings.

The Green Barrier™ reduces noise levels considerably for the residents of the nearby housing.
