

# The Green Barrier™

*Patented Design & Construction*

- Project Profile:** Trench Lock, Telford
- Client:** J S Bloor (Tamworth) Ltd
- Detail:** 165mtrs length x 2.5mtrs high Economy acoustic Green Barrier™, woven Willow one side and living Willow other side. 120mm RockDelta core.
- Objective:** Screening a new housing development from road noise, whilst providing a natural hedge like appearance from the roadside.
- Construction date:** May 2010

The site prior to the installation of the Green Barrier™

The rear, living side planted into a trench .

The woven side of the Barrier just after installation, with the scruffy roadside fence / hedge screened.

The completed installation with newly planted evergreen climbers at the base of the woven side.
