

# The Green Barrier™

*Patented Design & Construction*

- Project Profile:** St. Stephens Primary School, Blackburn
- Client:** F. Parkinson Ltd
- Detail:** 94.5mtrs length x 3.0mtr high Acoustic Economy Green Barrier™ in woven Willow. 120mm RockDelta sound absorbent core.
- Objective:** To screen and reduce noise levels from a busy road for a new primary school.
- Construction date:** September 2010

The site prior to the installation of the Green Barrier™, very exposed with noisy traffic.

During construction, showing the noise absorbent core inserted between the woven willow panels.

Finishing off the installation of the acoustic Green Barrier™.

The completed Green Barrier™ blends in well with the surrounding trees.
