

# The Green Barrier™

*Patented Design & Construction*

**Project Profile:** Bushcade Ltd, Ingatestone, Essex

**Detail:** Green Barrier Hedge in Living Willow, 250m x 2.5m high.

**Objective:** To provide screening and security for a large haulage contractors site adjacent to a busy main road.

**Constr. Date:** March 2004

The trench prepared with the Willow panels laid out ready for erection.

The Barrier is erected on a soil bund giving additional height and visible screening.

The 2.5m height provides security and once covered in foliage will create an extremely dense hedge.

The completed Barrier, with irrigation system in place. Within a few weeks of installation the Barrier is already producing strong green side shoots and leaves.

With acknowledgement to Bushcade Ltd., Ingatestone, Essex.
